Several people seem to think the railroads will go back to the three cent rate May 1st. This is a mistake. The two cent rate will apply to all travel within the state. Three cents will be charged on interstate travel.

Fred Twomey has had St. Francois county added to the territory wherein he represents the Krenning Grocery Company of St. Louis. Fred is much elated over his enlarged field and says he will bring his family back to Ironton as soon as he can find a house.

J. E. Grandhomme has about concluded a trade of his business house across from the courthouse on Forest Park Boulevard in St. Louis. The deeds have not yet been filed but it is said that the deal is practically closed.

The Bismarck hotel will be conducted by B. T. Eaton. She was urgently requested to do so by the Southeast Missouri Drummers Association and the various Orders of Railway men. They promised their hearty support and co-operation.—Bismarck Gazette.

The city council held a meeting Monday night and F. R. Holson, newly elected member from the north ward was inducted into office. Wm. Wm. Trauernicht, who was elected from the south ward, declines to serve and another election will have to be held to fill the place.

Andrew Barnhouse, Record Keeper of Ironton Tent, No. 102, Knights of the Macabees, Wednesday morning received a check for \$2,000 in favor of Mrs. Annie Schneider, widow of the late Chas. W. Schneider, who died in St. Louis about March 1st. Prompt payment of insurance.

Weatherly speaking, Sunday was an ideal Easter, and the services in the churches throughout the Valley were fitting supplement to its joy and brightness. The themes of sermon and song were Love and Hope; and aside from these, what remains of worth to humanity—what of result to faith?

There were four killing frosts the past week. Wednesday night the low point reached by the thermometer was 22; Thursday night, 25; Friday and Saturday nights, 27. In consequence, fruit prospects were damaged considerably. But some people tell us that the peaches were not all killed.

Let the city council be most careful in the expenditure of the \$5,000 voted to improve the streets. If they do exercise wisdom and good judgment future generations will rise up and call them blessed. If they practically throw the money away as is too often the case in road and street improvements, they will be cursed for a long, long while.

Despite the inclement weather, the Ladies' Social Club met with Mrs. T. B. Pruitt Tuesday afternoon of last week. After usual business, pretty Easter thoughts were given in response to roll call. The feast prepared by Mrs. Pruitt and her daughter were enjoyed by all. Mrs. Wm. Trauernicht will entertain the club April 21, 1914.

A committee composed of Lead Belt pastors were here Wednesday with a petition containing more than 800 names, asking the County Court to order a local option election in the county outside of Farmington. The court suggested that the petition be withheld until Saturday and that if filed then they would set next Wednesday as the date upon which to consider it. The committee decided to do this and will present the petition tomorrow.—Farmington News.

Potosi Journal: "Judge Dearing, in the circuit court here, Tuesday, ruled that no penalty attached to the infraction of the compulsory school attendance law, so far as it applies to the rural districts, which practically nullifies the law in such districts. J. A. Miller, a resident of the Hochstetter district, was the defendant in this case and his attorney, S. G. Nipper, raised the point of no penalty, which was sustained. The suit was instigated by County Superintendent of Schools B. Fox, as a test case."

The people of Ironton were startled a few minutes before five o'clock Tuesday evening by the whistle at the flour mill sounding an alarm of fire. Inquiry revealed that Dr. Houston's residence in west Ironton was on fire. A number of people soon collected and smoke could be seen pouring out of the windows. It required some little time, however, to locate the fire. There had been a fire in the fireplace and the flames had communicated to the wall. The fire was extinguished without great damage.

At its February term the County Court, upon settlement with the clerk, Mr. Reymann, declared that there was due the county from that official \$956.73, excess fees. Mr. Reymann announced his purpose to return such fees as were not lawfully his, but there was disagreement as to some of the items—among others the amounts he had collected for hunters' licenses and for preparing the annual financial statements. Last week Mr. Reymann paid over to the county \$842.13, retaining \$114.60 hunting license fees, which the Attorney General declares he is not to account for. The question as to his having to account for the sums received for work on financial statements is yet in abeyance, and will in the end probably be returned to him.

Did you ever ride from St. Louis to the valley on the evening train, No. 9? It's an experience never to be forgotten. I made the trip last Sunday evening. We were just four hours and three quarters making the 91 miles. How is that for the nineteenth century? There was no accident, no unusual delay. Just jogged along, apparently every one indifferent to the fact whether we progressed or not. It was just two hours and fifty minutes from the time we left Union Station, St. Louis, until we pulled out of De Soto. Ten minutes, lacking three hours, to cover 45 miles. It is outrageous, is just what it is, and our people are patient and long suffering to put up with any such service. We had it badly discounted thirty years and more ago. There should be a remedy somewhere.

When Presiding Elder Court was here a couple of weeks since it was said that he issued an edict that in future all M. E. Church, South, services in the valley should be held in the Tabernacle in Ironton. To make the order more effective Fort Hill church was locked up and the key carefully put away. The contingent, however, who have been maintaining so strongly that "Fort Hill shall not be closed," last Sunday—when they found their sanctuary locked—leased the old butcher shop at the foot of the hill and conducted Sunday School therein. They seem determined to maintain a church in Arcadia. Late—Peace has come. At a meeting of the congregation Monday night it was agreed, after much discussion, to abandon the tabernacle in Ironton after next Sunday; and thereafter to hold all services in Fort Hill church—as in the days of yore. Arcadia smiles again!

E. G. Stoney, of Ironton, Mo., General Manager of the Ozark Hog Ranch Co., (810 Olive St., St. Louis.) This Company recently purchased 800 acres of land lying north and west of Potosi, from 2 to 15 miles. The 800 acres is to be divided into ranches of 250 acres each, and 50 thoroughbred brood sows, are to be placed upon each ranch. The Company are negotiating for 1400 acres of land in this county which will also be divided into ranches. They have three ranches open in Iron County, where they own

2800 acres of land. He says: "Bankers of New York, have purchased a hog ranch of 250 acres, in Washington County, upon which 50 brood sows will be placed. The Ozark Hog Ranch Co., feed, breed, and care for these hogs with their increase for a term of three years, giving the purchaser 1/2 of the net increase. At the end of three years the contract is renewable for a long period if desired.—Potosi Independent.

At the meeting of the stockholder of the Bank of Arcadia Valley, April 6, 1914, the following were elected directors for that institution for the ensuing year: J. B. Holloman, Rev. John Adrian, G. A. Buckney, D. Edgar Fletcher, J. H. Long, A. J. Boardman, John Signer.

An information has been issued in the circuit court against R. R. S. Parsons, of Bonne Terre, vice-president of the St. Joseph Lead Company, charging him with making a false property return to the Secretary of State. It is charged that in July, 1912, Mr. Parsons filed a statement with the Secretary of State of the value of the St. Joseph Lead Company's property, as required by Section 3027 of the Missouri statutes which requires all foreign companies doing business in the State to file a statement of the value of their property in the State and the amount of taxes paid. Mr. Parsons' statement gave the value of the company's property the same as the assessed value of it, or \$1,340,000. The information alleges that this statement is false and that the company's property is many times greater than this. The date of the preliminary hearing was fixed for next Tuesday before Justice Messenger at Bonne Terre. Robert Holmes, of St. Louis, is reported to have been here twice recently, but we do not know whether his repeated unsuccessful attempts to oust Mr. Parsons and others from the company has anything to do with this latest move on him or not.—Farmington News.

Fredericktown Democrat - News: "One of the most disastrous fires that ever visited this section destroyed the fine plant of the Madison County Milling Company Tuesday afternoon, entailing a loss of probably more than \$40,000. George Smith and Wm. Gudger were the chief losers. The mill had been idle since Saturday and the only plausible theory of the origin of the fire is that of spontaneous combustion, as the presence of men in and around the place would utterly preclude the idea of incendiarism. The fire seems to have originated in the engine room, though the whole first floor was in flames when noticed. Nothing could be done toward saving the building. Mr. Smith was able to get his books out though about \$1400 was left in the drawer and burned. Over half of the amount was in checks which can be duplicated. The remainder was in currency and silver. About 7000 bushels of wheat, 800 bushels of corn, several car loads of flour and over \$2000 worth of bags, burned with the mill and the small ferris office building by it. Only the fact of the long rainy spell saved several small dwellings from sharing the fate of the mill. As nearly as we were able to learn only \$20,000 or \$25,000 insurance was carried. Messrs. Gudger and Smith have worked hard to build up this institution, and they have made it noted all over the country. The fire will not only injure them but the town and whole country. We were unable to learn whether the stockholders will attempt to rebuild."

The Sunday School Conference and Teachers' Meeting held at the church every Monday evening, is full of interest. The meeting is open to all who are interested in Sunday School work.

School Notes.  
Mr. S. E. Dorris, High School Inspector for the State Department, made a visit Monday of last week. This is the second inspection this year and he expressed himself as pleased with the progress of the school. He commended the additions that had been made to the equipment for the high school, saying he had made a very good showing this year. In his talk before the high school he stated that he had not visited a high school on so small a scale. Mr. Davis also inspected the grades this time and we were pleased to hear him compliment the teaching force there very highly and we would like to suggest here that it might make some difference in the opinion of those who are disposed to criticize the school if they should make a similar inspection.

The first base ball game of the season was played on the home grounds last Saturday between Bismarck high school and our team. While we did not succeed in winning the score, the game was played well by the Ironton boys. There were no disputes or objections to umpire's decisions and the game was enjoyed by all. The score was: Bismarck, 6; Ironton, 3.

Arbor day was observed Friday, April 10th, by the school in conjunction with the Mothers' and Patrons' League. The program prepared by the State Superintendent was carried out by the school, after which the League listened to the following papers: The Need of a Clean-Up Day, Mrs. Riggs; School Hygiene, Dr. G. W. Farrar; The House Fly, Mrs. Loomis. All of the papers were very practical, helpful and showed much thought in preparation. The program as a whole was very enjoyable and instructive. Some of the larger pupils caught the spirit of the day and cleaned the school yard as an example.

Saturday, April the eighteenth, is the day selected by the committee as Clean-Up Day for Ironton. Last Saturday had been designated by the committee and had it not rained most all day Easter Sunday would have looked on a different Ironton. The hearty co-operation from all sides—business men, residents and city authorities—assures the day a great success. In order to accomplish the greatest good the committee would suggest that all trash and litter that is burnable should be burned on the premises, that the remaining rubbish be placed in a convenient place where the wagons can get it. It is also desirable that you phone or leave your order for a wagon at the REGISTER office before Saturday morning in order that collections may be made systematically. Ironton is naturally a beautiful city and nothing mars its beauty more than the rubbish heaps bordering the beauty. All together for SATURDAY, APRIL 18TH, and clean town away. The Mothers' and Patrons' League will furnish the wagons.

## Bellevue News.

Easter Sunday dawned bright and beautiful in our little valley. The singing of the birds, the bustling birds, the coming forth of the grass, silently, preached to us the resurrection. Rev. J. H. Summers filled the pulpit at the Baptist church at the evening service; he delivered a sermon on the resurrection. Altogether it was an ideal Easter Sunday.

Mrs. John Hurrell, of Bismarck, visited old friends and relatives here last week.  
Mrs. D. A. Leaster and children are visiting her sister, Mrs. Chas. B. Pauls, in Oklahoma City.

Mr. and Mrs. W. H. Russell spent last Sunday with Mrs. Russell's parents in Ironton.  
Mr. and Mrs. Henry Brown, of Elvins, spent last week with her parents, Mr. and Mrs. H. Queen.

The Methodist people gathered at the Parsonage last Wednesday and had an "old fashioned working." The men recovered the house. The women tackled rugs for a carpet. The dinner was not the least consideration and consisted of everything the market and farm produced. Rev. and Mrs. Blaesee were equal to the occasion and made everyone feel at home.

A Union Sunday School has been organized at Elm Grove school house and meets on Sunday afternoons. The attendance and interest are excellent. The school is superintended by Arthur Ricketts, who is in every way worthy the position.

The Bellevue Library Club want it known that they have just put in

twenty new books, by standard authors, and they invite the public to call and see them and not only that, but read them. The terms are easy, and will be explained by the librarian. At present the library is installed at the Post Office.

The annual egg-roast on last Friday evening, in Wm. Townsend's woods, was attended by about 50 persons, "big, little, old and young." The only thing to mar the evening was the shower of rain that came a little too soon, and broke up the party before they wanted to go.

You folks of larger towns don't need to think that we, of a little country village, don't have good times. Don't you feel sorry for us? Why, we just have the best of times! True, picture shows and operas are our own make up, but they cost us comparatively nothing, and we enjoy them all the more for our work and responsibility. We are now at work on a two hour play which we expect to put on in about two weeks. Now if you don't credit what we say about this matter just come out and spend a few weeks and see. And be sure to come in time to see our home talent play, in announcement and date will appear later.
